SIVAKHULA - LET'S GROW TOGETHER

OUR WORK - OUR HERITAGE

ATTORNEY EMPLOYEES (WHETHER MALE / FEMALE, WE ARE REFERRED TO AS LAWYER BOYS)

The outside work of the Attorneys, Notaries and Conveyancers was almost totally left in the most capable hand of their reliable, honest outside workers. The work comprised delivery of letters, Supreme and Magistrate Courts work, attending to transfer duty, Provincial Administration Municipality of Cape Town Divisional Council, both Rent Boards, Roeland Street Prison, Master's Office, Deeds Office work, Receiver of Revenue, General Post Office, Air Freight Office, Labour Bureau and attending several other Government Offices to process the work of our firms. We handled very important documents which included summonses, bail bonds, wills, agreements, deeds of transfers, bonds important letters

We, the workers have the passion for our kind of work hence the majority of us spent our entire working life with the Lawyers. Seven gentlemen have completed 50 years service whilst a whole lot completed between 20 and 45 years. This is something we can be proud of. We are the flag bearers of our firms. At the places we frequent, we are mostly called on the names of our firms. Over all the years we built up good working relationships with our colleagues, assisting and teaching each other the work.

We built up lots of experience that no University/College will be able to teach you. No one will be able to take this away from us.

The majority of us received the most basic education at our state schools, but went on to impart our practical knowledge to those who came from Universities/ Colleges. We played a very important role in the Legal Fraternity

here in the Western Cape. This has been going on for hundreds of years. We conducted our work in a professional way dealing with different kinds of people at different places and opening many a door for our firms to benefit from.

We can all be very proud of all our achievements, considering our level of education. Let's hope history will somehow record us. Tell your stories to your children, family and friends. This is our heritage, and those thousands who went before us, who taught us the work, showed us the ropes and left a legacy for us. They are forever in our thoughts, no matter who they are or where they are. The Cape would definitely not have been the same without them and us.

Over the years we have witnessed lots of changes taking place which have directly affected our lives and that of our families and friends. Lift your hands in prayer and ask the Almighty to assist all of us in our work places and wherever we find ourselves, to give us a long life and lots of good health, God willing. Let us never forget parents and spouses for their assistance over the years.

Let us thank each other for the assistance, trust and support we give each other on a daily basis. Let us be proud of the fact that **OUR WORK IS OUR HERITAGE**.

Kindly make copies and hand out to everyone of our colleagues, wherever they may be and whoever they are.

This is very important for future generations to know.

Thank you very much.
